OKLAHOMA TRANSPORTATION RESEARCH DAY
"Transportation Excellence Through Research and Implementation"

OKLAHOMA TRANSPORTATION RESEARCH DAY – Virtual Event

Tuesday, October 20, 2020
from 8:30 am to 2:00 pm

Join us online via Zoom and experience invited speakers, demonstrations, student posters, virtual networking, and an awards ceremony.

Keynote Speakers:

Kelly Regal,
Associate Administrator for Research,
Development, and Technology,
Federal Highway Administration

Karen Philbrick,
Executive Director,
Mineta Transportation Institute,
San Jose State University

Presentations Include Topics On:

- Moving Ahead: Opportunity and Innovation in a Changing Mobility Landscape.
- Non-Proprietary UHPC for Transportation Structures.
- UHPC based Bridge Engineering Solutions.
- Stabilization of Expansive Soils: Clay Mineralogy and Durability Issues.
- Compost Filter Socks for Storm Water and Erosion Control in Construction.
- Using X-Ray Fluorescence to Assess Soil Subgrade Stabilization Competency During Construction Inspection.
- A Fresh Look at Developing Practical Balance Mix Design.

Up to 5 PDHs will be provided to attendees
