

ACCELERATED BRIDGE CONSTRUCTION
UNIVERSITY TRANSPORTATION CENTER

UTC Project Information	
Project Title	Project Management Plan to Support Successful Delivery of Accelerated Bridge Construction Projects
University	University of Oklahoma
Principal Investigator	Dr. Matthew Reyes
PI Contact Information	Phone: 405-325-4926 E-Mail: mdreyes@ou.edu
Funding Source(s) and Amounts Provided (by each agency or organization)	ABC-UTC: \$29,982 Match funding from Oklahoma Department of Transportation (ODOT): \$27,096
Total Project Cost	\$57,078
Agency ID or Contract Number	Proposal No. OU-2016-4-02
Start and End Dates	March 2021 to May 2022
Brief Description of Research Project	This project aimed at developing the framework of PMP for ABC. The framework is divided into two main parts: one part being a list of questions to be answered in the creation of the PMP and the second part providing a checklist of items or things to consider for each ABC technique selected for the project. ABC projects being fast paced will greatly benefit from having formal PMPs.
Describe Implementation of Research Outcomes (or why not implemented) Place Any Photos Here	The proposed template is available to be used by State DOTs for their ABC projects. FHWA has expressed that they would like to encourage State DOTs to implement the use of PMP for ABC projects.
Impacts/Benefits of Implementation (actual, not anticipated)	Caltrans has expressed interest to use the framework as a pilot. This project is now in the second phase where the research team will investigate the benefits/challenges of adopting the PMP for ABC.
