

**Bridge design & engineering (Bd&e)** is exclusively dedicated to the international bridge industry. This high quality, visually stunning quarterly magazine offers subscribers details of the latest innovations, technical features, interviews and project reports.

Topics regularly covered in **Bd&e** include structural engineering, architectural design, construction engineering, asset management, cable technology, specialist software, formwork, protective coatings, seismic safety and new products and technologies across all bridge engineering sectors.

As well as four publications a year, **Bd&e** provides subscribers with a high quality website [www.bridgeweb.com](http://www.bridgeweb.com), a fully-searchable archive of back issues, a regular eNewsletter, an annual directory of suppliers, and special supplements that cover different aspects of the industry in more detail.

If you finance, plan, design, build, maintain, operate or own a bridge, you need **Bd&e**. For more information, or to subscribe, please call +44 (0) 20 7973 6694 or email [customer@hgluk.com](mailto:customer@hgluk.com).
